EDUCATION

GIET University, Gunupur, India

B.Tech in Computer Science

Sep 2022 – May 2026

CGPA: 7.2

KC Public School, Berhampur

Intermediate Secondary

Mar 2020 – Mar 2022

Percentage: 82%

De Paul School, Berhampur

Matriculation

Nov 2018 – Mar 2020

Percentage: 92%

SKILLS

- **Languages:** Java, JavaScript, C
- **Frameworks/Libraries:** Tailwind, Bootstrap, NodeJS, ExpressJS, EJS
- **Tools/Platforms:** Linux, Docker, Git, AWS Lambda, AWS DynamoDB, AWS S3, portainer, Redis
- **IAM:** WSO2 Identity Server, Active Directory Integration, User Federation & Caching, Keycloak
- **Databases:** MongoDB, MySQL, Oracle, MSSQL

PROJECTS & OPEN SOURCE

Enterprise IAM Deployment & Identity Integration (Centroxy) **WSO2, Keycloak, Docker, Active Directory, Linux**

- Designed and deployed enterprise-grade IAM solutions using **WSO2 Identity Server v7.2** and **Keycloak**.
- Configured and implemented **multiple authentication mechanisms** for internal and federated users.
- Integrated **Active Directory with WSO2**, enabling user federation, caching, and seamless authentication flows.
- Designed **custom user journeys in Keycloak** based on client-specific identity attributes and access policies.
- Deployed IAM systems across **multiple regions and environments**, ensuring high availability and reliability.
- Containerized and automated deployments using **Docker and Portainer templates** for scalable infrastructure.
- Configured **secure HTTPS access behind load balancers** and managed infrastructure via SSH-based remote administration.

GIETU App - Backend

Docker, Redis, Express

- Implemented quiz features using Gemini API in NodeJS used by GIETU students (1400+ users).
- Designed and implemented a **caching mechanism** to store and reuse quiz questions, reducing redundant API requests.

Inventory Management App

Django, AWS S3, Lambda, DynamoDB

- Developed a multi-user web application supporting full CRUD operations during a summer cohort.
- Used Django for backend, AWS S3 for static content, AWS Lambda for API hosting, and DynamoDB for inventory & customer records.

URL Shortener (TTL Fix)

Express, Redis

- Fixed TTL handling in Redis caching to improve memory usage and automatically clear stale queries.
- Enhanced type safety validation across components.

Portfolio Website

MongoDB, EJS, Mongoose, Express

- Developed an in-house blogging module integrated into personal portfolio website.

CERTIFICATIONS

- Cloud Computing Certified by **NPTEL**
- **Oracle** Cloud Infrastructure 2025 Certified Generative AI Professional
